Requirements for referral

Referral from another participating library in the Midlands PAL scheme is required. Please phone or email, in advance, the PAL Co-ordinator at the site you wish to visit. ID is required visiting the Library.

Statement of access to resources

Reading access is provided to our print collection. No borrowing facilities available. Access to online resources available while visiting the Library.

Library Collection

The role of the library is to support clinical practice, as well as the learning, research and teaching needs of HSE staff and students on placement.

Our print and electronic collection covers all of the health sciences as well as health services, social sciences and management. In particular, core subject areas include medicine, surgery, nursing and allied health.
